

LifeScape Extended School Year Program

Every summer, LifeScape has the privilege of serving many additional students from the statewide area in our Extended School Year program (ESY). Because of our current census, we are limited in the number of children we will be able to serve in the ESY program for summer 2020.

We will accept applications for ESY through **March 27, 2020**. Applications will be reviewed and you will be notified of our ability to serve your student(s) by **April 24, 2020**.

Applications and all requested paperwork must be received in full by the **March 27, 2020 deadline**. If you have a student currently served at LifeScape, you do not need to fill out an ESY application.

To promote success for your student(s), there will be a three-day minimum attendance requirement per week, with priority given to full time students. In addition, discharge meetings are scheduled upon request at the end of the ESY session to review the programming that was conducted over the summer. If this is desired, we ask that a school representative be available for the discharge meeting with representatives from LifeScape, and parents in attendance. This option has been made available because it has been proven effective for the means of communication and customer satisfaction. Discharge meetings may be held via phone conference if needed.

We ask that you do not write any ESY statements regarding placement at LifeScape until you have been notified of acceptance. At that point, we would gladly have a LifeScape team member participate in the IEP meeting to assist with any questions regarding our ESY program and selection of ESY goals.

You can download the necessary application materials from our website:

www.lifescapesd.org/services/special-education-school

ESY runs June 8, 2020 through August 7, 2020. July 2 and July 3, 2020 will be no school days in observance of the July 4, 2020 holiday.
