# Spinal Orthoses

Prescription	Device	Indications	Documentation
Off-the-Shelf Lumbar Sacral Orthoses (LSO)		<ul style="list-style-type: none"> <li>Lumbar mechanical back pain</li> <li>Spinal stenosis</li> <li>Facet syndrome</li> <li>Spondylolisthesis</li> <li>Trauma</li> <li>Pre and post-op stabilization</li> </ul>	See <a href="#">Section 1</a> for documentation requirements
<b>CUSTOM</b> Lumbar Sacral Orthoses (LSO)		<ul style="list-style-type: none"> <li>Post-op lumbar surgery</li> <li>Degenerative disc disease</li> <li>Spondylolysis</li> <li>Spondylolisthesis</li> <li>Spinal stenosis</li> <li>Lumbar compression fracture</li> <li>Herniated disk</li> <li>Low back pain</li> </ul>	See <a href="#">Section 2</a> for documentation requirements
Off-the-shelf Thoracic Lumbar Sacral Orthoses (TLSO)		<ul style="list-style-type: none"> <li>Acute pain relief by thoracic postural extension</li> <li>Compression fractures of the thoracic spine</li> <li>Osteoporosis</li> <li>Pre and post-surgical</li> <li>Thoracic mechanical back pain</li> <li>Moderate kyphosis</li> </ul>	See <a href="#">Section 1</a> for documentation requirements
<b>CUSTOM</b> Thoracic Lumbar Sacral Orthoses (TLSO)		<ul style="list-style-type: none"> <li>Post-op fusion</li> <li>Kyphosis</li> <li>Severe compression fractures of the lower thoracic spine</li> <li>Burst fracture</li> <li>Spinal stenosis</li> <li>Spinal muscular atrophy</li> <li>Laminectomy</li> </ul>	See <a href="#">Section 2</a> for documentation requirements

# Spinal Orthoses

Prescription	Device	Indications	Documentation
Off-the-Shelf Cervical Thoracic Orthoses (CTO)		Low cervical and/or high thoracic fractures Post-op stabilization	See <a href="#">Section 1</a> for documentation requirements
<b>CUSTOM</b> Cervical Thoracic Orthoses (CTO)		Post-op cervical fusion Anterior and/or posterior control Low cervical and/or high thoracic fractures	See <a href="#">Section 2</a> for documentation requirements
Cervical Orthoses (CO)		Post-op non-invasive restriction and immobilization of the cervical spine Post trauma Acute cervical pain Arthritis Spinal stenosis	See <a href="#">Section 1</a> for documentation requirements
<b>CUSTOM</b> Scoliosis TLSO		Thoracic Curve Lumbar Curve Thoracolumbar Curve	See <a href="#">Section 3</a> for documentation requirements
Protective Helmet		Post-op Craniectomy Seizures Post-Concussion	See <a href="#">Section 4</a> for documentation requirements

# Spinal Orthoses

<p><b>Section 1</b> MD, DO, PA, or NP notes must mention:</p>	<p>Which anatomical areas the brace should control <b>AND</b> What movements the brace should prevent <b>AND</b> Brace will reduce pain by decreasing mobility of the trunk Brace will facilitate healing following an injury to spine or related soft tissue Brace will support weak spinal muscles and/or deformed spine</p>
<p><b>Section 2</b> MD, DO, PA, or NP notes must mention:</p>	<p>Which anatomical areas the brace should cover <b>AND</b> What movements the brace should prevent <b>AND</b> Brace will reduce pain by decreasing mobility of the trunk Brace will facilitate healing following an injury to spine or related soft tissue Brace will support weak spinal muscles and/or deformed spine</p>
<p><b>Section 3</b> MD, DO, PA, or NP notes must mention:</p>	<p>Spinal curvature and COBB angles <b>AND</b> Risser sign status</p>
<p><b>Section 4</b> MD, DO, PA, or NP notes must mention:</p>	<p>Reason for added protection <b>AND</b> Deemed medically necessary by MD</p>
